RE: Take Pride in Pickering Tree Planting

Dear Councillor McLean:

Thank you for your attendance and support of the Take Pride in Pickering tree planting on October 30, 2010.

Your presence and the warm welcome you gave to the volunteers at this event was very much appreciated.

This biodiversity event, held in partnership between Pickering Nuclear, the City of Pickering, Toronto and Region Conservation Authority, and Environmental Stewardship Pickering, has taken place at Alex Robertson Park twice a year since 2000. Over the years, volunteers have:

- planted more than 11,000 native trees and shrubs;
- established several no grass cutting areas;
- planted 500 native wildflowers, a snake hibernaculum;
- 35 songbird boxes and one bat box; and
- built an ephemeral pond for amphibians and turtles.

Thank you again for your support of this great cause.

Sincerely,

Glenn Jager
Senior Vice President, Pickering A

Paul Pasquet
Senior Vice President, Pickering B
